

Connected digital workflow ecosystem for premium hair transplant clinics.

Document date: 2026-08-09

#### SCOPE

- Module overview for SmartPlan, Donor Mapping, SmartTrack, LiveCount, SmartReport, Cloud Portal, and RemoteCare
- Designed for onboarding, team alignment, workflow review, and responsible clinical communication.

#### RESPONSIBLE USE

- SPEEDDDHI supports workflow visibility, documentation, and operational organization.
- Clinical decisions remain with qualified healthcare professionals.

#### SUPPORT ROUTING

- Use RemoteCare for structured support sessions.
- Use Contact or Request Demo pages for account, partner, and clinic network routing.
